

About Us

At Cenvar Roofing, we value efficiency, transparency, and community. These values can be seen in each aspect of our business practices, from the way we treat our team members, to the ways we do business and serve our customers. No matter which of our five locations you are served by, the top notch service and professionalism will be the same. At the end of the day, your satisfaction is our top priority. Our 100% satisfaction guarantee means that we are positive you will be satisfied with our service, and if you're not, we will make it right. Every time.

Our Core Values

Ethical: We meet or exceed all of the legal requirements for constructions companies, and go above and beyond to endure transparency in all we do.

Expert: We have high standards for workmanship and professionalism, and strive for excellence in all areas of our business

Engaged: We are proud members of the communities we are located in, and are committed to help improve the quality of life of the people around us.

Our Services

Roofing Services: We believe that every customer deserves a safe and durable roof over their heads. Storms, old age, poor installation, and general wear and tear are all common reasons why a roof may need some work. While we see repairs as a short-term fix to a long-term problem, we have confidence that a properly repaired roof can last for years, and a properly replaced roof will last a lifetime. No matter what your material needs are, our craftsmen have years of experience, and will leave you with a beautiful and durable roof that lasts for years.

Gutters: Gutters serve an important role in making your roof last for decades. The main function of gutters is to divert water away from your home. Heavy rainstorms have the potential to waterlog your roof, and cause heavy damage to your siding, doors, windows, and even foundation. When your gutters are fully functional, that water will be diverted away from key structures of your home, and drained in a safe location.
